M'IVOR-TYNDALL'S MIND READING

In a series of eight experiments in thought transference, psychic phenomena, telepathy, or mind reading, by any name it is wonderful, Dr. Alexander J. McIvor-Tyndall demonstrated to an audience which filled the Opera House last evening the wonderful development to which he has attained in the force of thought.

Dr. McIvor-Tyndall is a striking personality and impresses one that he has fathomed mysteries which to the lay mind are perplexing through their very incomprehensibility. He requested that he be given a committee of well known men, and there appeared on the stage to aid him in his experiments Col. Thomas Fitch, Dr. Humphrie, Mr. Wilson, of San Francisco, Prince David, F. M. Swanny, Clarence Macfarlane, W. W. Dimond, Percy Morse and W. C. Peacock.

The experiments were in general those which have been performed by others who have made their specialty the transference of thought, he, blindfolded, finding articles, reading the faces of cards, tracing the movements of supposed murderers and thieves, describing persons and things, finding a word on the page of a book, telling the page and line, and in general showing how absolutely he possessed himself of the thoughts of those who loaned him their consciousness.

Perhaps the most remarkable of his many experiments was that in which he traced a cigar and replaced it in the mouth of Frank Armstrong, between him and the committee who knew of the movements and selection, there being interposed Clarence Macfarlane, who was himself blindfolded and was entirely unconscious of what had been done. This use of the subconsciousness of a third person, was most impressive, and marked a step in advance of the ordinary demonstrations which are given by telepathists.

The large audience was enthusiastic over the wonders performed and the cheers were hearty and unbounded over his success. Dr. McIvor-Tyndall announced that there would be other demonstrations on Tuesday and Thursday evenings, and also that on Monday afternoon, he would do his blindfolded carriage drive through the streets, starting from either the theater or the Hawaiian Hotel at 4:30 o'clock.

Scattered through these are the following official and commercial matters which every business man and lawyer must keep more or less in touch with, viz:

During the week ending January 31, 1903, there were published in the said papers 73 such notices.

Unless a man reads all seven of these papers, he is never sure that he has seen a notice which may be vitally important to him. For example, of these seventy three notices above referred to:

while there were quite a number that did not appear in either of these dailies.
